RFID Hard Tag

This hard tag features a highly sensitive Radio Frequency Identification (RFID) inlay for item-level visibility and inventory management and an EAS element for asset protection. The RFID component stores information specific to the protected merchandise for item-level and near real-time merchandise visibility. Source Tagging is available so retailers can receive floor-ready merchandise with consistent tag placement—expediting receiving and selling floor fulfillment.

Retailer Values

// Enables near real-time merchandise visibility
// RFID element offers an efficient way to track inventory, while the EAS element provides product protection
// Tagging at the point of manufacturing (Source Tagging) helps improve tag compliance and ensures consistent application
// Source Tagged merchandise arrives floor-ready, enabling faster speed to sales floor
